Work Authorization

Valid student residence permit in Germany. Eligible for EU Blue Card / skilled worker permit conversion upon full-time employment contract. Seeking full-time employment. **Notice period: 1 month.**

Professional Summary

Full-Stack Software Engineer with production experience across web, mobile, backend, AI, API, database, and cloud development using **React, Next.js, TypeScript, Node.js, Python, FastAPI, React Native, and PostgreSQL**. Currently building healthcare software in Germany, owning features end-to-end: AI-powered data extraction, mobile applications, subscription billing live for all paying customers, and AWS production infrastructure with twice-weekly release cadence.

Core Skills

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript, HTML, CSS, Tailwind CSS

Backend & APIs: Node.js, Express.js, Python, FastAPI, C#, .NET Core, REST APIs, GraphQL, Webhooks

Databases & Data: PostgreSQL, SQL, Prisma ORM, SQLAlchemy, MongoDB, Redis, RabbitMQ

Cloud & DevOps: AWS (EC2, RDS, S3), Docker, GitHub Actions, CI/CD, Git, Azure DevOps, Vercel

AI & Integrations: OpenAI, Agentic AI Workflows, Stripe, Shopify GraphQL APIs, Clerk, Vercel Blob, Socket.IO

Engineering: Full-Stack Development, Backend Development, Mobile Development, API Design, Database Design, Event-Driven Systems, Production Deployments, Database Migrations, Agile/Scrum, Jira, Code Review

Work Experience

Software Developer | EVER Health GmbH | Sep 2025 – Present

Lahnau, Hesse, Germany

- Own full-stack delivery on the EVER Health platform using **React, Next.js, TypeScript, Node.js, PostgreSQL, and Prisma**; built the **Product Evaluation Framework**, standardizing release-readiness criteria for healthcare feature assessment across the engineering team.
- Build **EVER-AI** backend services with **Python, FastAPI, and OpenAI** for structured health-report data extraction, automated protocol creation, and agentic AI workflows; implement PII-scrubbing workflows to strengthen privacy in AI-powered processing.
- Develop and maintain **EVER-APP**, a cross-platform React Native healthcare application for iOS and Android; shipped the **EVER Precision** feature to production, currently supporting **20–25 active patients** with backend REST APIs and database-backed clinical workflows.
- Built and maintain **Stripe subscription billing** (webhooks, idempotent event handling, asynchronous payment processing) as the production billing system live for **all paying customers**; integrated **Shopify GraphQL APIs** for commerce and subscription operations.
- Ship production releases **twice weekly via GitHub Actions CI/CD**; own deployments and reliability across **AWS (EC2, RDS, S3) and Docker**, including database migrations and cross-stack incident resolution.

Software Developer | Casepoint | Jan 2024 – Jun 2024

Surat, Gujarat, India

- Developed enterprise web features using **C#, .NET Core, PostgreSQL, and Kendo UI** for **1,000+ internal users**.
- Implemented event-driven architecture using **RabbitMQ and Redis** for messaging and caching; optimized PostgreSQL queries across large datasets.
- Collaborated across **10+ Agile/Scrum sprints** using Azure DevOps and Git during the final year of Bachelor's studies.

Project

Nisarg's TradeLab | Full-Stack Trading Journal & Analytics Platform

- Built **TradeLab**, a full-stack trading journal and performance analytics platform using **Next.js, React, TypeScript, FastAPI, Python, and PostgreSQL**; designed backend analytics and risk engines with **SQLAlchemy**, including PnL metrics, drawdown calculations, position sizing, strategy/tag/mistake analysis, daily journals, and CSV import/export.
- Integrated **MetaTrader 5 (MT5) synchronization** for live positions, deal events, and historical trade import; delivered **AI Coach** features with OpenAI and Gemini APIs, Clerk authentication, Vercel Blob file storage, and cloud deployment.

Education

Master of Science in Computer Science | Apr 2025 – Present

Philipps University of Marburg, Marburg, Germany

Bachelor of Engineering in Computer Engineering | Jul 2020 – Jun 2024

Gujarat Technological University, Gujarat, India

Languages

English: C1 (professional working proficiency) | **German:** A2, currently learning B1
