SUMMARY

Experienced Full-Stack Developer with strong expertise in Next.js, Node.js, and React, and a solid foundation in interactive web application development and scalable system design. Proficient across modern technologies including TypeScript, .NET Core, C, PostgreSQL, Prisma, MongoDB, RabbitMQ, Redis, Docker, and CI/CD workflows. Skilled in integrating RESTful APIs, optimizing backend performance, and developing responsive, user-focused interfaces. Adept at real-time architectures, distributed systems, and Agile collaboration. Committed to writing clean, maintainable code and delivering reliable, high-quality solutions.

EXPERIENCE

Software Developer

EVER Health GmbH

September 2025 - Present, Lahnau, Hesse, Germany

- Developed scalable full-stack features using Next.js, Node.js and TypeScript, following clean architecture and best coding practices.
- Implemented and optimized backend services and RESTful APIs, improving system reliability, performance, and scalability.
- Designed and maintained PostgreSQL databases and used Prisma ORM for efficient data modeling, query optimization, and improved system responsiveness.
- Collaborated with cross-functional teams in an Agile environment, contributing to sprint planning, code reviews, and CI/CD processes.
- Developed a cross-platform mobile application using React Native for iOS and Android, expanding platform accessibility to mobile users.

Software Developer

Casepoint

January 2024 - April 2024, Surat, Gujarat, India

- Contributed to enterprise applications for TalentHub using .NET Core, C, PostgreSQL, and Kendo UI.
- Developed backend components, optimized queries, and implemented real-time messaging using RabbitMQ and Redis.
- Participated in Agile sprints, collaborating with development teams using Azure DevOps and Git for effective task management and version control.
- Leveraged advanced communication skills during 10+ Agile sprint cycles to convey technical requirements across cross-functional teams, enhancing code delivery effectiveness by 30% using Azure DevOps and Git.
- Cultivated a learning mindset by completing bi-weekly knowledge-sharing sessions, accelerating onboarding for 4 new team members and integrating emerging .NET Core best practices and Kendo UI features into sprint deliverables.

Software Developer

TatvaSoft

July 2023 - August 2023, Ahmedabad, Gujarat, India

- Implemented a full-stack Book Store application using React.js, Node.js, Express.js, and MongoDB.
- Developed Python-based ETL scripts to automate weekly data migration for a 10K-record inventory system, reducing manual processing time by 40% and ensuring data integrity across MongoDB databases.
- Engineered and integrated real-time notification module using WebSocket for the Book Store app, delivering instant inventory updates to over 500 concurrent users and achieving 99.9% uptime with Node.js and Socket.IO.

EDUCATION

Master's degree in Computer Science

The Philipp University of Marburg • Marburg, Germany • April 2025 - Present

Bachelor's in Computer Engineering

Gujarat Technological University • Gujarat, India • July 2020 - June 2024

SKILLS

JavaScript, TypeScript, Java, C, C#, C++, SQL, HTML, CSS, Python

React.js, Angular, Node.js, Express.js, React Native, .NET Core

Prisma, Jira, Azure DevOps, Tailwind, RabbitMQ, Redis, Git, Docker, PostgreSQL, MongoDB
